LEVEL 4: FASHIONISTA

Your clothing is an outside extension of your inside. What a beautiful way to express yourself! You know how to tie in your outfits, just don't let your outfits tie you up too much.

LEVEL 3: PRACTICAL-LY PERFECT

You know what you're doing when it comes to clothing! You know what looks good on you, and that makes you feel good. Sure sometimes you're lazy cause you're just going to the grocery store, but even celebs get caught in sweat pants.

LEVEL 2: RECEPTICAL FOR THE RESPECTABLE

You try to always dress appropriately. You want to make sure that your clothes are respectable for who you are and what you do. But you should have more fun with it! After all, your clothes don't need to be boring when you're so interesting.

LEVEL 1: SEW WHAT

Of course, clothing is not what makes you you. However, clothing could be one way of letting people know who you are. Don't be afraid of being "prissy", just taking the time to purchase things you like that look good on you could not only polish you off, but be a way for people to understand you better.
